

RECYCLING SURVEY

Blue Sky Services has been providing the opportunity to those who want to recycle from their home for the past 3 years now. Our fee is \$20 per month and we make weekly pickups. The service fee is to cover the cost of driving to our customers' homes, then to recycling centers in St. George and Las Vegas. We can sell only a few items that we collect such as paper, cardboard, and aluminum and receive very little money.

Our vision is to make recycling a profitable and self-sustaining business here in Utah, so that Southern Utah residents can see the results and benefits of recycling. Also, we want to make recycling more affordable for all. In order to do this, Blue Sky would need to work with a city that is interested in curbside recycling.

Before we present our bid to the Town of Springdale, we would like to take a survey. There have been myths and falsehoods that surround recycling everywhere we go. This will help Blue Sky and the Town Council to have a starting point. In the meantime, please check us out on our website at www.blueskyrecycling.com or give us a call at (435) 673-1400.

Blue Sky Recycling

Please Check One:

Please detach and return to Town Hall. Thank You.

_____ I am in favor of a town-wide curbside recycling program and am willing to pay an additional \$6.50 a month in my utilities bill.

_____ I am not in favor of a town-wide curbside recycling program, but am in favor of recycling on an individual basis.
