To Whom It May Concern:

This is regards to the property that was proposed for the History Center. I understand that there is some question as how to use it.

I would like to say that if the property was designated for the History Center, then it should continue to be used for that. Money has been given to the city earmarked for this project. Please use that money so that we can keep the memories of how this settlement and town came to be. Several hard-working people were "called" to settle these communities. They did so by leaving homes that they had just built to come here to start over again. Their faith to do so, should be honored and not forgotten in frenzy of tourism. I, myself, have direct relatives who settled this community. Some have even built homes here that still exist today in Rockville and Springdale. I would hate for their legacy to be lost. . . .

Please use the property as it was presented to be used. It should be used for the History Center. I believe many people will stop in and visit, learn , and appreciate our town. Take the opportunity to share the hard work of others who came before and build the History Center.

Sincerely,
Kristine Young
