Subject: River park location

To: <tdansie@springdale.utah.gov>

Hi Tom. Just a comment on the use of the River Park location for the new site for a history museum. If there's any room on Lion Blvd, it would be best served there. The extra traffic would need a stop light there in the future due to people trying to turn left out of the parking lot. It may cause trouble anywhere for that matter as turning left anywhere these days is a pain. I just like our "dog park" the way it is but realize that many want to spend money on another visitor spot.

Thanks, Janel Bassett
