Dear Mayor Bruno, Tom Dansie, and Springdale Town Council,

I am extremely opposed to locating the Springdale History Museum and Visitors Center at the River Park. I understand the need for this structure but am certain that there is a much better location in town.

The River Park is the only place in town that is a true haven for residents and people with dogs. The original intention and peace and beauty of the park will disappear.

This visitor center will bring lots of visitors who will not appreciate (or care about) the atmosphere of the park. There will be lots of pavement for parking, noise, and there won't be enough room left to preserve the original intentions for the River Park.

I also don't understand why the Planning Commission didn't weigh in before this went to the Town Council. This is certainly within the Planning Commission's purview. And they would bring out the advantages and disadvantages of this location.

Sincerely,
Patricia Vail-Blackett
