

1. Legislative Policy Committee zoom call – The legislature now has well over 800 bills they may consider in 2024. There was much discussion about modular units for housing and how a municipality will confirm that safety inspections will be done properly. There is still much concern that legislation will pass to reduce our local control particularly for land use.
2. Housing Committee – regarding the donated property from Stew Ferber, the committee will meet next week with the Redhawk and Moenave neighbors regarding the future potential development of the properties. We are working on having a third party oversee the development of these properties but no details have been finalized.
3. ULCT Annual Conference – this was my 16th and last conference. I have very much appreciated that the Council supports these educational opportunities. The networking and connections I made have been valuable over the years for me to be better at working on the best policies for our town.

You can view the agenda here: https://www.ulct.org/events/annual-convention/2023-annual-convention?utm_medium=email&utm_source=govdelivery

Video sessions: [Governor Cox](#), [Eric O’Neil on AI and Cybersecurity](#), [Laura Ling](#), [Great Salt Lake](#),

and watch many of the other sessions here: <https://www.youtube.com/user/ulctTube/videos>

I attended the following breakout sessions:

- Rivers and Riparian areas: Managing the Water sheds
 - Resort Caucus (we may see some legislation to help with better illegal short term rental enforcement)
 - Opportunities in Ordinances
 - Systems Thinking to Manage, Measure and Make a Difference
 - Housing approaches
 - Dignity index - Use the language to dignify discourse
4. I was again asked to be on the Nomination committee for the Board. This is the 4th time. I always appreciate the opportunity to better know and recommend who represents all Utah cities and towns. There are many elected officials at the Town/City levels who have been advocating for the whole of the State and not just their own municipalities only.
