

# TOWN OF SPRINGDALE

DECEMBER 2021

ESTD 1862

## From Mayor Smith

### THANK YOU

Thank you for the opportunity to serve the past 8 years as Mayor of Springdale. The experience has caused me to stretch and I am better for having served. When I took office, I promised to make the best decisions for Springdale and that has been my goal each and every day. Time will be the judge of how well I accomplished that goal.

The experiences that I have had and the people I have built relationships with have been incredible. I will cherish them forever. During my tenure as Mayor, some have agreed with me and others have not shared my same vision. I have appreciated the support that I have received and grown from the discussion when other opinions differed from my own. I love Springdale and have stated previously it is the people that make this town great. We have some pretty great people!

As I leave office, I look forward to Mayor Bruno and the plans she is making for the future of Springdale. I wish her the best and pray for her success. I know she will find joy in the challenges she will be facing.

— STAN

Springdale, UT 84767

## Protecting our Water Sources

The Town's water supply comes from several sources including the Virgin River, wells, and springs. Protection of these sources from contamination, pollution, and other impacts is of high importance to the Town. In collaboration with the State of Utah, the Washington County Water Conservancy District, and subject matter experts, the Town has developed Drinking Water Source Protection Plans for the Town's water supply. These plans can be found on the Town [website](#).

The Public Works Department will periodically include information in the newsletter about source water protection and ways that residents and businesses can help to ensure that our water supplies are protected from contamination. A 2-page fact sheet on household hazardous waste is included with this month's newsletter inserts.

*Residence & Business  
Holiday Decorating  
Contest*

*Top 3 houses & businesses will receive a cash prize*

*Registration Closes December 15th*

*Judging 12/21-12/23*

*Pick up a registration form from Town Hall or scan  
this QR code*

*with your phone's camera  
then click the link that appears*

## The Chief's Message

This is the time of year folks travel for the holidays. So, I want to remind residents of the "Resident Vacation Check Request" for those who are planning a trip out of town. Residents can go online to the Town of Springdale's website and navigate to the "Police Department" page. On the department page, residents can choose the "Resident Vacation Check Request" link from the list. An online form can quickly be completed and directly emailed to the police department. Once received, officers will be aware you are away and we will have vital contact information. All the information submitted to the police department is kept private and confidential at all times. Remember, it is a great idea to have a friend or neighbor periodically check on your home, and it's helpful to have timed lighting randomly turn on and off. Another suggestion is to not advertise on social media when you are away. Burglars prey on opportunity more often than chance.

Please remember, "If you *see something-say something*" and report any suspicious persons or activities to the police dispatch center at 435-634-5730. Thank you for your continued support.

Happy Holidays, Chief Brecke

The Town of Springdale is honored to sponsor its third annual *Wreaths Across America* event on Saturday, December 18<sup>th</sup> beginning at 10:00 am. Wreaths will be placed on all known Veteran gravesites in the Jolley-Gifford cemetery, including wreaths to honor each branch of the service (Army, Navy, Air Force, Marines, MIA/POW, Coast Guard, Merchant Marines). Everyone is invited to attend and help honor Veterans in this special and significant way.

If you are interested in placing a wreath on a family member's gravesite, or as a representative of the service, please contact Town Clerk Darci Carlson at [dcarlson@springdale.utah.gov](mailto:dcarlson@springdale.utah.gov)

Your involvement will definitely leave a powerful and meaningful impression on you.

A poster for the Wreaths Across America event. The background is a blurred image of a cemetery with many white headstones. The text is overlaid on this background. At the top, it says "Join Us in Our Mission To". Below this, there are three columns: "REMEMBER Our Fallen U.S. Veterans", "HONOR Those who Serve", and "TEACH Our children the value of freedom". In the center, it says "WREATHS ACROSS AMERICA" in large red letters, followed by "At the Jolley-Gifford Cemetery • Springdale, UT" and "SATURDAY DECEMBER 18<sup>th</sup> • 10:00 AM". Below that, it lists the program: "Program includes: Keynote Speaker Sergeant First Class JJ Allred, essays from Springdale Elementary students, presentation of branch servicemen's wreaths & laying of wreaths on Veteran's graves,". At the bottom left, it says "This is an outdoor event. Heaters, chairs, and sunshades will be provided." At the bottom right, it says "For more info or to volunteer contact: Darci Carlson 435-772-3434 dcarlson@springdale.utah.gov". In the center bottom, there is a logo for "WREATHS across AMERICA" featuring three wreaths.

### TOWN OF SPRINGDALE HOLIDAY OFFICE HOURS

**Christmas** – Closed starting at 1pm on 12/23  
and reopening at 9am on 12/27

**New Years** – Closed starting at 1pm on 12/30  
and reopening at 9am on 1/3/22.

(126 LION BLVD, SPRINGDALE)  
COME ENJOY LINE DANCING AND FOOD,  
CHAT WITH FRIENDS AND WATCH OUR  
FIREWORKS SHOW!

**FIREWORKS STARTING AT 8PM!**

## Household Hazardous Waste Fact Sheet

### *What is Household Hazardous Waste?*

Many hazardous products and chemicals such as fuel, cleaners, oils and pesticides are used in and around the home every day. When improperly discarded, these products are called household hazardous waste (HHW). HHWs are discarded materials and products that are ignitable, corrosive, reactive, toxic or otherwise listed as hazardous by the EPA. Products used and disposed of by a typical residence may contain more than 100 hazardous substances including:

- Batteries
- Cleaners
- Cosmetics
- Fluorescent light bulbs
- Glues
- Heating oil
- Insecticides and pesticides
- Ink
- Medicines
- Motor oil, fuel and automotive supplies
- Paints, thinners, stains and varnishes
- Polishes
- Swimming pool chemicals
- Smoke detectors
- Thermometers
- Fuel

### *HHW is a Serious Threat*

The U.S. Environmental Protection Agency estimates the average American household generates 20 pounds of HHW each year. As much as 100 pounds of HHW can accumulate in the home and remain there until the resident moves or undertakes a thorough spring cleaning.

Since the chemicals found in HHW can cause soil and groundwater contamination, generate hazardous emissions at landfills and disrupt water treatment plants, it is important to dispose of HHW properly. Many solid waste treatment facilities are currently required to screen for HHW to avoid operating under restrictive hazardous waste laws. Furthermore, many communities may be required to establish a HHW collection program in order to qualify for permits to manage storm water.

### *Safe Handling Tips*

The best way to handle household hazardous materials is to completely use the product before disposing of the container. If this is not possible, then the next alternative is to return unused portions to your community household hazardous waste clean-up day. Keep products in their original package with all labels intact. If the container is leaking, place it in a thick plastic bag. Pack the products in a plastic-lined cardboard box to prevent leaks and breakage.

Household hazardous waste clean-up days are for household wastes only. No industrial or commercial wastes and no containers larger than five gallons are accepted. Explosives, radioactive material and medical wastes are also unacceptable.

HHW can be dangerous to people and pets who come in contact with them. HHW can endanger water supplies, damage sewage treatment systems, and cause other environmental damage. Only use the products as directed. **DO NOT:**

- Flush HHWs down the toilet
- Pour HHWs down the sink
- Pour HHWs down a storm drain
- Pour HHWs on the ground

Contact your local health department or the Division of Solid and Hazardous Waste to determine whether your community has a household hazardous waste collection program.

### ***Identify HHW***

Reduce the amount of potentially hazardous products in your home and eliminate what you throw away by following these easy steps:

#### **1. Before you buy:**

- Read the labels and be aware of what they mean.
- Look for these words on labels; they tell you what products may need special handling or disposal.

Caution  
Combustible  
Corrosive  
Danger  
Explosive

Flammable  
Poison  
Toxic  
Volatile  
Warning

- Buy only what you can use entirely.
- Select a product best suited for the job.

#### **2. After you buy:**

- Read label precautions and follow directions for safe use.
- Recycle/dispose of empty containers properly. Clean up spilled products properly.
- Share what you can't use with friends or neighbors.
- Store properly.
- Use recommended amounts; more is not necessarily better.
- Use the child-resistant closures and keep them on tightly.
