

TOWN OF SPRINGDALE

APRIL 2022

ESTD 1862

From Mayor Bruno

KEEPING SPRINGDALE LITTER-FREE

A couple of weeks ago, I was "plogging" along SR-9, and I ran into a long-time resident of Springdale. She was surprised and a little disappointed to see me picking up litter. She told me she used to do the same, but she resents the visitors who cause the problem and is no longer willing to clean behind them.

I share this resident's concern about inconsiderate visitors who don't properly dispose of their trash. However, it is more important to me to live in a litter-free environment. I was a plogger for decades in Salt Lake City, and I'll continue to be a plogger here. I do it for me, not for the visitors.

Please help keep Springdale litter-free by cleaning up in front of your own property. Consider adopting a portion of SR-9 if you have the time and physical ability to do so. The Town has a street sweeper, thanks in part to a generous contribution from UDOT, but that can't take care of the litter on the sidewalks and trails.

P.S. Plogging is a combination of walking or jogging with picking up litter. It started as an organized activity in Sweden around 2016. As a workout, it provides variation in body movements by adding bending, squatting, and stretching to the main action of walking.

Welcome Back Earth Day!

Earth Day has a cherished legacy and has long been celebrated by many across the nation. The celebration traces its roots back to the 1960s, prior to the creation of the EPA and other laws protecting water and air quality. Senator Gaylord Nelson of Wisconsin is credited as the founder of Earth Day. Throughout his life, he worked tirelessly to bring awareness to environmental concerns and promote education on issues such as air and water pollution, endangered species, and more. His vision, and the vision of millions of others since, has been to do everything we can to keep our planet healthy.

The Zion Canyon community has embraced the idea of Earth Day and has a rich tradition of furthering those objectives set forth by Senator Nelson so many years ago. For the past several years, Earth Day has been an opportunity for members of our community to come together, learn more about environmental issues and initiatives, and celebrate the natural beauty of the area.

This year for Earth Day, the Town of Springdale is partnering with the Paiute Indian Tribe of Utah, the Virgin River Ward, and others to keep the tradition of education, service, and community alive!

On April 30th, 2022, come celebrate Earth Day with us by participating in one of several service projects. These projects will include planting trees, cleaning up the Virgin River, litter cleanup along SR-9, and invasive weed abatement. Projects will begin at 10:00 AM and will last for roughly an hour and a half. At 12:00 noon, we invite you to join us at the Town Park on Lion Blvd. to enjoy some live entertainment provided by the Paiute Indian Tribe of Utah and local musicians Mason Cottam and Dave Tate. There will also be great food and opportunities to learn more about what you can do to support Earth Day in Zion Canyon.

In the coming days and weeks, more information will be made available on how to participate in the Earth Day projects and other activities, but we invite you to mark your calendar for April 30th and to tell all of your friends! We can't wait to see you there! Welcome back!

Please contact Ryan Gubler at (435) 772-3434 with any questions.

Be Mindful of the Cemetery Policies

The Town of Springdale recently updated its policies for the Jolley-Gifford Cemetery. As we start into mowing season those policies will be more strictly enforced, especially in regards to decoration. The Town's new policy does not allow for any decorations that do not sit fully on the headstone footprint. All decorations that do not sit on the headstone footprint will be removed. These policies can be found on the Town website under the [Jolley-Gifford Cemetery](#). If you have any questions, please email Ryker Steglich at rsteglich@springdale.utah.gov.

Come Garden with Us

Zion Canyon Community Garden Plots are available! If you are interested in gardening or just want to play in the dirt, garden plots are available at the Community Garden located next to the pickleball/tennis courts. Community tools, water and compost are on hand, and help from seasoned gardeners if you need some tips on what to grow. Please go to [ZionHarvest.org](#) for more information and an application.

The Playground is Open!

Thank you for your patience as we have worked to get the playground reopened. The Parks Department is committed to your safety and is glad to provide residents and visitors with great places to recreate.

 **Be Earth Friendly!**
GO PAPERLESS

1. Go to www.xpressbillpay.com and log in or create an account
2. Click "View Bill" under the utility account you would like to be paperless
3. Locate the "Paperless (Off)" button
4. Click the button to turn "Paperless (On)"

Or please call Town Hall and we can help you. 435.772.3434

Household Hazardous Waste Collection Day

Spring has arrived and we all have that urge to clean out our garages and sheds. Many of us have old paints and pesticides and other products that are dried up or expired or no longer used. Washington County Solid Waste District has taken a proactive approach in seeing that the residents of Washington County have a method to properly dispose of their hazardous materials and is holding a Household Hazardous Waste (HHW) collection day.

Who: Residents of Washington County
What: Aerosol cans, car batteries, fluorescent light bulbs, fuel, herbicides, medical waste, oil, paint, paint thinners, pesticides, propane, rechargeable batteries, and paint supplies
Where: 325 N Landfill Road
Washington, UT
When: April 16 from 8:00am-12:45pm

This service is **free** for Washington County residents bringing materials from their homes.

Desert Tortoise Sculpture Scavenger Hunt

Build some Earth Day excitement and engagement by participating in a desert tortoise sculpture scavenger hunt! Enjoy finding all five sculptures around town and at the same time learn some interesting facts about their habitat, life cycle, threats, and adaptations. Interpretive signs have recently been installed at each sculpture location.

Before you start your exploration, pick up a punch card from Town Hall or

the Springdale Library. Use the locations hints on the card to find all five sculptures. When finished, bring your card back to the CCC lobby by Friday, April 29th. Drop it in the drop box to be entered in a special Earth Day drawing on April 30th. Eligible participants have a chance to win fantastic prizes.

Don't miss out on this unique activity and enjoy discovering these beautiful new public art sculptures.

Transient Lodging Task Force Update

On January 12th of this year the Town Council adopted a temporary moratorium on new transient lodging. At that time the Council also appointed a task force to develop proposed updated transient lodging land use regulations.

The task force has been meeting regularly over the past two months. The task force has analyzed the specific issues of transient lodging in Springdale. As part of this process the task force has separated the issues associated with transient lodging in specific from the issues related to increased visitation to Springdale and Zion National Park in general. The task force is focused on addressing the issues specific to transient lodging.

The task force has researched the transient lodging strategies of other communities. They have reviewed toolkits and best practice resources available from state agencies like the Community Development Office, as well as non-profit organizations such as the Gateway and Natural Amenity Region (GNAR) Initiative. The task force recently asked for community input through a community survey which generated over 100 responses.

Based on all this research and analysis the task force is now preparing strategy recommendations to present to the Planning Commission and Town Council. The task force anticipates bringing initial recommendations to the Planning Commission during their work meeting on May 4, and a final recommendation to the Commission on May 18. After holding a public hearing to gather additional community input the Commission will make a recommendation regarding the proposed revisions to the Town Council. The Council will act on the recommendations in June or early July.

Cycle & Soak Irrigation

CYCLE 1

Wait 30 - 60 minutes

CYCLE 2

Wait 30 - 60 minutes

CYCLE 3

Wait 30 - 60 minutes

- Alternate cycles between zones

- Be sure to wait at least 30 minutes before you water a zone for the next cycle

- Break up watering into shorter watering times (15 minutes = watering for 5 min 3x)

Springdale Parks Update

To avoid runoff from the grass you may need to schedule several shorter water cycles in the same day, allowing about 30 minutes in-between for the water to soak in. This is called "cycle and soak" and is easily programmed into your irrigation control.

Reference the helpful information in this "Cycle & Soak Irrigation" graphic to learn more.
